

A FOCUS ON OFFICES

We have longstanding experience creating thriving, innovative and environmentally friendly office schemes across the UK, delivering MEP for new-build developments, grade listed heritage buildings and complex high-rise city centre projects.

OUR EXPERIENCE

New build

Change of use

Heritage buildings

Grade I & II

Serviced offices

High-rise multi-storey

City centre locations

Ongoing maintenance

DESIGN

In-house BIM Level 2 focusing on how the office will be used including reception, main areas, open plan working, meeting rooms, conference suites, break out zones, catering, bathrooms and leisure spaces.

LIVE ENVIRONMENTS

Strong experience working around office staff and visitors, alongside the public in busy city centre locations with high pedestrian footfall areas, and venues with little on-site storage

DISRUPTION

Minimised using G&H Engineering Services to build plantrooms, risers, CHP systems and pipework offsite wherever possible

MAJESTIC

CITY SQUARE LEEDS

Channel 4's new national headquarters

Grade II
listed

7 floors
of Grade-A offices

Three-storey atrium reception

Mechanical plant
craned on to roof
in busy city centre

Worked around
a high pedestrian
footfall

G&H's efforts helped get the project over the line on this iconic scheme despite many exceptional challenges not least the effect caused by Covid-19. They should be proud of what has been achieved and we look forward to working together again soon.
